3. Module description

Description	<p>The goal of the module is to acquaint students with the basic principles of functioning of selected political systems in the legal and political system view, to discuss the systemic position of organs and institutions constituting the political system (the form of government, the form of state), and to present differences in functioning of state supreme organs in particular political systems.</p> <p>Upon completion of the module, students will be expected to recognise types of political systems, analyse the structure and operation of individual political institutions, and anticipate the consequences of changes taking place in the political arena.</p> <p>In the course of module realization special attention will be paid to dynamics of functioning of contemporary political systems.</p>
Prerequisites	<p>The student should know basic political science terms in the field of the functioning of the state and the political system as well as the science of law. Besides, they should have a general knowledge of the history of Europe and the USA and be interested in current political, social and economic events which have an impact on the functioning of the discussed countries.</p>
