

1.	Field of study	Biophysics
2.	Faculty	Faculty of Science and Technology
3.	Academic year of entry	2023/2024 (winter term), 2024/2025 (winter term)
4.	Level of qualifications/degree	first-cycle studies
5.	Degree profile	general academic
6.	Mode of study	full-time

7. General information about the	General information about the module		
Module name	Microbiology		
Module code	W4-BF-S1-5-23-23		
Number of the ECTS credits	2		
Language of instruction	Polish		
Purpose and description of the content of education	The Microbiology module aims to introduce students to the fundamentals of microbiology and the importance of microorganisms in the environment and science. The laboratory classes are designed to prepare the student to work under sterile conditions in a microbiology laboratory and familiarise them with basic research techniques for working with microorganisms.		
List of modules that must be completed before starting this module (if necessary)	not applicable		

8. Learning	earning outcomes of the module						
Code	Description	Learning outcomes of the programme	Level of competent (scale 1-5)				
E1	The student understands the importance of microbiology and the role of microorganisms in nature.	W01	1				
E2	The student has a basic knowledge of the structure and function of microbial cells.	W02	1				
		W03	1				
E3	Knows the basic techniques used in the microbiology laboratory and can make and analyse preparations of bacteria and	U03	1				
	yeasts. The student can assess the influence of various environmental factors on the growth and activity of microorganisms.	U08	1				
	microorganisms.	W07	1				
E4	The student can carry out the experiment correctly, document and present the results of the determinations and present	U04	1				
	their interpretation.	U07	1				
		U08	1				
E5	The student knows and understands the principles of laboratory work, takes care of safety and hygiene in the	U10	1				
	microbiology laboratory, and conscientiously analyses experimental data.	W10	1				

9.	Methods of co	Methods of conducting classes			
	Code Category		Name (description)		
a01		 	Formal lecture/ course-related lecture a systematic course of study involving a synthetic presentation of an academic discipline; its implementation assumes a passive reception of the information provided		
e01			Laboratory exercise / experiment [also conducted as fieldwork] a method of practical application of knowledge; implemented in three stages: the recognition of a problem induced by the task content, the formulation of the problem and the attempt to solve it accompanied by the assessment of the effects; the goal is to acquire skills, abilities and habits, and to consolidate the acquired knowledge so that it becomes operational; the laboratory method assumes greater independence of learners than carrying out an experiment		

Ŀ	10. Forms of teach	Forms of teaching				
	Code	Name		Assessment of the learning outcomes of the module	Learning outcomes of the module	Methods of conducting classes
ı	=Z1	lecture	15	exam	E1, E2	a01
	-Z2	laboratory classes	15	course work	E3, E4, E5	e01

11. The studer	he student's work, apart from participation in classes, includes in particular:			
Code	Category	Name (description)	Is it part of the BUNA?	
a02	Preparation for classes	Literature reading / analysis of source materials reading the literature indicated in the syllabus; reviewing, organizing, analyzing and selecting source materials to be used in class	Yes	
a03	Preparation for classes	Developing practical skills activities involving the repetition, refinement and consolidation of practical skills, including those developed during previous classes or new skills necessary for the implementation of subsequent elements of the curriculum (as preparation for class participation)	Yes	
b01	Consulting the curriculum and the organization of classes	Getting acquainted with the syllabus content reading through the syllabus and getting acquainted with its content	No	
c02	Preparation for verification of learning outcomes	Studying the literature used in and the materials produced in class exploring the studied content, inquiring, considering, assimilating, interpreting it, or organizing knowledge obtained from the literature, documentation, instructions, scenarios, etc., used in class as well as from the notes or other materials/artifacts made in class	No	
c03	Preparation for verification of learning outcomes	Implementation of an individual or group assignment necessary for course/phase/ examination completion a set of activities aimed at performing an assigned task, to be executed out of class, as an obligatory phase/element of the verification of the learning outcomes assigned to the course	Yes	
d01	Consulting the results of the verification of learning outcomes	Analysis of the corrective feedback provided by the academic teacher on the results of the verification of learning outcomes reading through the academic teacher's comments, assessments and opinions on the implementation of the task aimed at checking the level of the achieved learning outcomes	No	

Information on the details of the module implementation in a given academic year can be found in the syllabus available in the USOS system: https://usosweb.us.edu.pl.
