1.	Field of study International Studies in Political Science and Diplomacy	
2.	Faculty	Faculty of Social Sciences
3.	Academic year of entry	2024/2025 (winter term)
4.	Level of qualifications/degree	first-cycle studies
5.	Degree profile	general academic
6.	Mode of study	full-time

7. General inform	ation about the	e module			
Module name		Programme related laboratory 1B			
Module code		W3-MS-S1-LO_1B			
Number of the ECTS	credits	3			
Language of instruct	ion	English			
Purpose and descrip content of education		The module includes classes whose topics are closely related to political science, international relations and diplomacy. It deals with relevant issues related to the study program with particular emphasis on modernity and future competencies: communication and teamwork, adaptability and flexibility, and emotional intelligence. The topics of the course will depend on the needs of the students arising from the dynamic development of the modern world and globalization. The module includes the participation of external experts, including visiting professors, which will strengthen cooperation with the external environment. The classes will be conducted in Polish or a foreign language, depending on the origin of the expert invited to conduct the classes.			
List of modules that is completed before starmodule (if necessary	arting this	not applicable			

8. Learning	outcomes of the module		
Code	Description	Learning outcomes of the programme	Level of competent (scale 1-5)
LO_1B_K01	The student is aware of the need to update his knowledge and acquire new skills, considering the innovative development and dynamics of changes occurring in the international environment.	MS_1_K01 MS_1_K05	3
LO_1B_U01	The student, using various sources and drawing on the knowledge and experience of experts, can search, analyze and critically evaluate information on processes and phenomena occurring in the international environment.	MS_1_U01 MS_1_U03 MS_1_U10	4 3 2
LO_1B_U02	The student can assess the relevance of the presented information and content to his research work and realizes the need to expand his knowledge continuously.	MS_1_U03 MS_1_U06 MS_1_U07	3 3 3
LO_1B_W01	The student has advanced knowledge of the main challenges and threats in the international environment and diplomacy and understands their causes, consequences and dynamics.	MS_1_W05 MS_1_W09	3
LO_1B_W02	The student knows the correlation of political and socio-economic systems and understands the functioning of social, political, economic and cultural structures and institutions in the international environment and diplomacy.	MS_1_W04	3

MS_1_W05	;	3
MS_1_W09	ı	3

9. Methods of). Methods of conducting classes					
Code	Category	Name (description)				
a05	Lecture methods / expository methods	Explanation/clarification explication involving the derivation of a predetermined theorem from other, already known ones, in the number of steps specified by the person teaching the course				
b02	Problem-solving methods	Lecture-discussion transmission of content involving interaction with the lecture audience; discussion of lecture-related issues is one of its elements or constitutes its follow-up				
b04	Problem-solving methods	Activating method — discussion / debate an exchange of views supported by substantive arguments leading to a clash of different views, a compromise or the identification of common positions; it proceeds according to previously agreed-upon rules regarding the time, manner and turn-taking as well as the principles of civil discourse; a discussion is not a competition but aims at finding the best solutions or presenting different points of view; its varieties include brainstorming, Oxford-style debate, panel discussion, decision tree, conference discussion; a debate is an orderly dispute between supporters and opponents of a viewpoint, usually specialists in the field or pre-selected representatives of a group dealing with a common problem				
b10	Problem-solving methods	SWOT analysis a method of analyzing a phenomenon/action/work of an institution, employed to organize information and solve problems; applied in strategic planning, project implementation or solving a business or organizational problem; a universal tool to be used in the initial stage of a strategic analysis which involves sorting information about a problem into four categories: strengths and weaknesses, opportunities and threats; SWOT analysis makes it possible to determine the factors in favour of a project and its chances for success, as well as eliminating or reducing negative factors and threats to the project at the stage of early diagnosis				
c07 Demonstration methods		Screen presentation a presentation of synthetic image content using computer graphics, e.g., a series of slides or other multimedia forms, usually accompanied by a commentary; typical components of a screen presentation include text organized into bulleted points, charts, images and animations, sometimes sound effects or music; a multimedia illustration of course content presented in the form of a projected image				
e01	Practical methods	Laboratory exercise / experiment [also conducted as fieldwork] a method of practical application of knowledge; implemented in three stages: the recognition of a problem induced by the task content, the formulation of the problem and the attempt to solve it accompanied by the assessment of the effects; the goal is to acquire skills, abilities and habits, and to consolidate the acquired knowledge so that it becomes operational; the laboratory method assumes greater independence of learners than carrying out an experiment				
f03	Methods of self-learning	Conceptual work a (mainly intellectual) activity carried out independently (or in a selected group) resulting in the creation of a concept, idea or project; creating a plan based on a vision; developing a general outline of a project; producing a simplified sketch of the variant versions of a procedure/product/work
