

1.	Field of study	Law in Business
2.	Faculty	Faculty of Law and Administration
3.	Academic year of entry	2024/2025 (winter term)
4.	Level of qualifications/degree	second-cycle studies
5.	Degree profile	general academic
6.	Mode of study	full-time

7.	General information about the module	
Module name		Enterprise supply chain management
Module code		ZŁDP
Number of the ECTS credits		3
Language of instruction		Polish
Purpose and description of the content of education		The classes cover issues related to building supply chains in an enterprise as one of the critical elements of gaining a competitive advantage in the market and show the effectiveness of a supply chain, understood as its ability to achieve the set goals and effects with the lowest possible expenditures necessary for their implementation. During the course, students are introduced to the concept of network approach in management sciences and gain knowledge about the essence of supply chains and their complexity. They will learn the principles of designing efficient and effective flows in supply chains that enable the implementation of basic logistics tasks focused on minimizing costs.
List of modules that must be completed before starting this module (if necessary)		not applicable

8.	Learning outcomes of the module			
Code		Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
K01		The student analyzes social and economic events, phenomena and situations. He/she can identify and evaluate the individual and collective interests of the various participants in the supply chain and their mutual relations	K01	4
