7.	General information about the module	
Module name		Teaching Internship in Chemistry at the Primary School Level
Module code		1BL_25_90
Number of the ECTS credits		2
Language of instruction		Polish
Purpose and description of the content of education		The purpose of the teaching practice at school is to accumulate experience related to the teaching and educational work of a teacher at the second educational stage (grades VII - VIII of elementary school) and confront the acquired knowledge of chemistry, general didactics and chemistry didactics with the pedagogical reality in practical action. In the course of practice, the formation of teaching competence takes place by: - further familiarization with the peculiarities of the schools where the teaching practice is carried out, in particular, learning about the teaching tasks carried out by the school, the way it functions, the organization of work, the various participants in the pedagogical processes and the documentation kept; - observing the activity of students and all activities undertaken by the school teacher in the course of his lessons (classes); - To actively cooperate with the teacher in planning and conducting lessons (classes); - To perform the role of a teacher, in particular, to plan a demonstration lesson in chemistry, to formulate the objectives, to select methods and forms of work and teaching resources, to organize and conduct lessons based on independently developed scenarios, and to discuss the collected experiments in a group of students (listeners).
