Foreign Language for Business Purposes

Vocational Internship: 60hours

During internship students master the knowledge how to operate on the labour market: how to look for and find employment, participate in the interview, negotiate working conditions. They also learn how to perform new job duties drawing upon the knowledge and skills acquired in their studies.

Credits are given upon the presentation of an internship report, including the description of job duties, prepared by a student and confirmed by an employer.

Additional information

28.	General description of the programme	The basis of the English philology program equal for all the specializations being a combination of practical and theoretical knowledge and literature knowledge, 2nd degree studies, apart from humanistic subjects and lectures, also cover various subject modules equal to each specialisation
29.	General description of the specialization	<p><u>American and Canadian Studies for Intercultural Communications and Diplomacy</u></p> <p>This programme (specialisation) of studies aims to provide comprehensive training for American and Canadian studies professionals, whose professional skills combine proficiency in English with theoretical knowledge of diplomatic processes, international law, international and intercultural relations, and practical skills in intercultural diplomacy and communication. The graduates will be prepared for a career in public administration and diplomatic missions, in international companies and in other organisations, institutions and companies in positions requiring proficiency in foreign languages and diplomatic skills.</p> <p><u>Culture and Literature of English-Speaking Countries</u></p> <p>This programme (specialisation) of studies offers extended and deepened studies in literature and culture of the English-speaking world (popular culture, contemporary culture, minority cultures and literature) and translation studies. The graduate of the specialisation is a well educated English studies professional, whose competencies combine proficiency in English with theoretical knowledge of cultural and literary theory. A comprehensive understanding of the cultural and social mechanisms of the contemporary world prepares the graduates to participate and have a career in the broadly defined area of culture. Apart from the foundation of fact-based knowledge this specialisation aims to develop the graduates' humanistic worldview, focusing mostly on the characteristics of the</p>

Western culture.

Culture-Media-Translation

This programme (specialisation) of studies offers extended and deepened studies in culture of the English-speaking world, semiotics of culture, translation studies and media studies. The graduate of the specialisation is a well educated English studies professional, whose competencies combine proficiency in English with theoretical knowledge of cultural, literary, and translation theory. The studies prepare for a career in media, public relations and other areas of business and cultural and social life - anywhere where a comprehensive understanding of cultural and social mechanisms of the contemporary world is seen as an asset. This specialisation aims to develop the graduates' humanistic worldview, enriched with a practical skillset in translation and media (based on the communication theory seen as a social and cultural phenomenon), which directly influences the graduates' desirability as potential employees in the institutions and business where such knowledge and competencies are required and valued.

Design of Interactive Entertainment (SPRINT-WRITE II)

This programme (specialisation) of studies aims to provide comprehensive training and education to English studies professionals whose competencies combine proficiency in English with theoretical knowledge of interactive entertainment design and with practical skills in video game design, traditional game design, and games and software localisation. The studies are addressed mostly to the graduates of the first degree studies in "Interactive entertainment design and games and software localisation (SPRINT-WRITE)", as well as to graduates of other first degree studies who have the required English language skills and the necessary competencies in game design. The graduate of this specialisation is prepared for a career in interactive entertainment as a level designer, game designer, localisation professional, as well as in game-related media.

English Studies: Teacher Training Programme

A graduate of supplementary MA studies, teaching specialization is characterized by extensive general education and high competences in the field of SLA and practical use of English. They are characterized by a near-native level of competence in English. They have extensive knowledge in the field of history, culture and literature of English-speaking countries. They have also extensive knowledge and well-developed skills concerning teaching methodology and pedagogy and are ready to work as foreign language teachers at all levels of education.

A graduate is prepared to use their knowledge and language skills at work (e.g. in schools, mass-media such as TV, radio or the Internet, travel agencies etc.).

Foreign Language for Business Purposes

A graduate of supplementary MA studies, business English specialization is characterized by extensive general education in the field of humanities, as well as specialized knowledge in the field of linguistics and translation studies. They have thorough and detailed knowledge and skills concerning the use of English. They are fluent in English and they have extensive knowledge concerning the culture of English-speaking. The studies also prepare students to become translators and interpreters: they can interpret consecutively and simultaneously spoken texts, as well as translate general and specialized written texts. They are familiar with specified professions. A graduate is prepared to use their knowledge and language skills at work (e.g. in translation agencies, mass-media such as TV, radio or the Internet, travel agencies, departments of international co-operation etc.).

Polish-English-Arabic Translation and Interpreting

A graduate of supplementary MA studies, translation specialization with the Arabic language is characterized by extensive general education in the field of humanities, as well as specialized knowledge in the field of linguistics and literature. They have thorough and detailed knowledge and skills concerning the use of English, as well as high competence in Arabic. They are fluent in both English and Arabic and they have extensive knowledge concerning the culture of both English-speaking and Arabic-speaking countries. The studies prepare students to become translators and interpreters: they can interpret consecutively and simultaneously spoken texts, as

well as translate general, specialized and artistic written texts. A graduate is prepared to use their knowledge and language skills at work (e.g. in translation agencies, mass-media such as TV, radio or the Internet, travel agencies, departments of international co-operation etc.).

Polish–English–Chinese Translation and Interpreting

A graduate of supplementary MA studies, translation specialization with the Chinese language is characterized by extensive general education in the field of humanities, as well as specialized knowledge in the field of linguistics and literature. They have thorough and detailed knowledge and skills concerning the use of English, as well as high competence in Chinese. They are fluent in both English and Chinese and they have extensive knowledge concerning the culture of both English-speaking and Chinese-speaking countries. The studies prepare students to become translators and interpreters: they can interpret consecutively and simultaneously spoken texts, as well as translate general, specialized and artistic written texts. A graduate is prepared to use their knowledge and language skills at work (e.g. in translation agencies, mass-media such as TV, radio or the Internet, travel agencies, departments of international co-operation etc.).

Polish–English–German Translation and Interpreting

A graduate of supplementary MA studies, translation specialization with the German language is characterized by extensive general education in the field of humanities, as well as specialized knowledge in the field of linguistics and literature. They have thorough and detailed knowledge and skills concerning the use of English, as well as high competence in German. They are fluent in both English and German and they have extensive knowledge concerning the culture of both English-speaking and German-speaking countries. The studies prepare students to become translators and interpreters: they can interpret consecutively and simultaneously spoken texts, as well as translate general, specialized and artistic written texts. A graduate is prepared to use their knowledge and language skills at work (e.g. in translation agencies, mass-media such as TV, radio or the Internet, travel agencies, departments of international co-operation etc.).

Polish–English–Japanese Translation and Interpreting

A graduate of supplementary MA studies, translation specialization with the Japanese language is characterized by extensive general education in the field of humanities, as well as specialized knowledge in the field of linguistics and literature. They have thorough and detailed knowledge and skills concerning the use of English, as well as high competence in Japanese. They are fluent in both English and Japanese and they have extensive knowledge concerning the culture of both English-speaking and Japanese-speaking countries. The studies prepare students to become translators and interpreters: they can interpret consecutively and simultaneously spoken texts, as well as translate general, specialized and artistic written texts. A graduate is prepared to use their knowledge and language skills at work (e.g. in translation agencies, mass-media such as TV, radio or the Internet, travel agencies, departments of international co-operation etc.).
