7. General information about the module	
Module name	Field Research – Guiding
Module code	W2-TR-S2-029
Number of the ECTS credits	2
Language of instruction	Polish
Purpose and description of the content of education	The module is designed to enable you to acquire knowledge on the principles and techniques applied in tourism service from the point of view of a tour guide and tourist group pilot, as well as the skills of implementing tourist events of various types and serving tourists at various stages of a tourist journey. The student will practice developing habits of cultural customer service based on the principles of professional ethics. The student will learn to take care of the quality of tourist service. He/she will learn how to communicate with the group and about the necessity of updating natural and humanistic knowledge.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-029_1	Able to plan and carry out tourism-related tasks in an organised manner, able to integrate participants in a tourism event or other joint venture, and to manage the work of a team.	U08	5
W2-TR-S2-029_2	Is able to communicate with the group he/she leads using various communication channels and methods and techniques of communication (in Polish and foreign language)	U03	4
W2-TR-S2-029_3	Systematically updates natural and humanistic knowledge of the places where he is to guide the group	K03 U07	3 4
W2-TR-S2-029_4	Understands the need for an interdisciplinary approach to transfer knowledge of the places visited and to use skills from different disciplines	K03	3
W2-TR-S2-029_5	He or she is ready to fulfil the role of tour leader in a responsible manner, taking into account the changing needs of society and towards participants in tourism and leisure activities.	K04	4

9. Methods of conducting classes		
Code	Category	Name (description)
e01	Practical methods	Laboratory exercise / experiment

		<i>[also conducted as fieldwork] a method of practical application of knowledge; implemented in three stages: the recognition of a problem induced by the task content, the formulation of the problem and the attempt to solve it accompanied by the assessment of the effects; the goal is to acquire skills, abilities and habits, and to consolidate the acquired knowledge so that it becomes operational; the laboratory method assumes greater independence of learners than carrying out an experiment</i>

7. General information about the module	
Module name	Foreign language in tourism
Module code	W2-TR-S2-030
Number of the ECTS credits	2
Language of instruction	English
Purpose and description of the content of education	The subject aims to expand the student's competences in the efficient use of English in tourism (both in practical and scientific aspects). The student learns and consolidates already acquired language competences related to tourist services. The student learns new specialized vocabulary and learns to describe in English issues related to or related to tourism. Students prepare for classes by learning the literature on the subject (analysis of scientific sources) to which the lecture is devoted and discuss specialist topics in the field of tourism in English. After completing the course, the student has competences, knowledge and qualifications to freely express and discuss (in English) on current issues related to tourism. After completing the module, the student will be able to use scientific literature in a foreign language and will also have the ability to prepare oral presentations in a foreign language at the B2+ level.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-030 _1	Be able to describe issues related to a variety of tourism topics in a communicative manner, including debating with people in the tourism industry.	U03 U04	4 3
W2-TR-S2-030 _2	Is proficient in the use of English as applied to tourism (both practical and academic) and does so at B2+ level.	U04	4
W2-TR-S2-030 _3	Is able to apply an interdisciplinary approach and use knowledge from different disciplines to solve problems in a foreign language.	K01 U04	2 5

7.	General information about the module	
Module name		Foreign specialist language
Module code		W2-TR-S2-031
Number of the ECTS credits		3
Language of instruction		English
Purpose and description of the content of education		The aim of the course is to prepare students for work in the international tourism industry, based on knowledge of a foreign language at a specialist level. The aim of the subject is to introduce typical tourist content in a foreign language, specialised tourist vocabulary, phrases, expressions. The subject complements the subject of foreign language in tourism with specialised tourist knowledge and language skills in this area. The student acquires the ability to use a specialised (tourist) foreign language both in speech and writing at B2+ level.

7. General information about the module	
Module name	Fundamentals of an Enterprise
Module code	W2-TR-S2-014
Number of the ECTS credits	2
Language of instruction	Polish
Purpose and description of the content of education	Student understands the interrelationships occurring in the economy. He/she knows the principles of enterprise and consumer functioning in a market economy. The module teaches entrepreneurial attitudes, innovativeness, business models, skills of setting up and running a business (and maintaining it on the market), including navigating the institutional and legal system, constructing a business plan, obtaining sources of financing.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-014_1	He or she is familiar with the general principles for the creation and development of forms of individual entrepreneurship, using knowledge from the field of tourism sciences.	W07	4
W2-TR-S2-014_2	Knows the economic mechanisms and principles of tourism enterprises.	W05	4
W2-TR-S2-014_3	Able to think and act in an entrepreneurial manner.	K06	4
W2-TR-S2-014_4	Correctly identifies and resolves dilemmas related to the profession.	U09	4
W2-TR-S2-025_5	Be able to prepare marketing research tools used in tourism.	U06	5

9. Methods of conducting classes		
Code	Category	Name (description)
a01	Lecture methods / expository methods	Formal lecture/ course-related lecture <i>a systematic course of study involving a synthetic presentation of an academic discipline; its implementation assumes a passive reception of the information provided</i>

b04	Problem-solving methods	Activating method – discussion / debate <i>an exchange of views supported by substantive arguments leading to a clash of different views, a compromise or the identification of common positions; it proceeds according to previously agreed-upon rules regarding the time, manner and turn-taking as well as the principles of civil discourse; a discussion is not a competition but aims at finding the best solutions or presenting different points of view; its varieties include brainstorming, Oxford-style debate, panel discussion, decision tree, conference discussion; a debate is an orderly dispute between supporters and opponents of a viewpoint, usually specialists in the field or pre-selected representatives of a group dealing with a common problem</i>
c07	Demonstration methods	Screen presentation <i>a presentation of synthetic image content using computer graphics, e.g., a series of slides or other multimedia forms, usually accompanied by a commentary; typical components of a screen presentation include text organized into bulleted points, charts, images and animations, sometimes sound effects or music; a multimedia illustration of course content presented in the form of a projected image</i>

7. General information about the module	
Module name	General academic module
Module code	OOD_2024_SS_MOG
Number of the ECTS credits	3
Language of instruction	
Purpose and description of the content of education	The aim of the module is to expand the general knowledge and skills of the student, going beyond their degree programme and to inspire to independently develop scientific and creative passions. The issues addressed within the module are aimed at arousing curiosity, and indicating the usefulness of interdisciplinary knowledge and diverse skills in professional life and in relationships and social interactions, as well as activities aimed at various fields of activity. As a result, students have a chance to arouse the need to complete knowledge and skills outside the programme education. As part of the general academic module, classes (lectures and/or practicals/seminars or practical classes) are proposed. They consist in both providing knowledge in a manner that considers innovative and professional principles of presentation and interactive methods, involving students to actively participate in classes. The interdisciplinary assumptions of the module take into account the possibility of its co-running by academics representing various scientific disciplines, which will allow for a multifaceted approach to the presented issues. In addition, the module takes into account the possibility of implementation in English and other languages. The student chooses the subject of classes from among the proposals submitted as part of the module.

a04	Preparation for classes	Consulting materials complementary to those indicated in the syllabus <i>agreeing on materials complementary to those indicated in the syllabus, supporting the implementation of tasks resulting from or necessary for class participation</i>	Yes
b01	Consulting the curriculum and the organization of classes	Getting acquainted with the syllabus content <i>reading through the syllabus and getting acquainted with its content</i>	Yes
c01	Preparation for verification of learning outcomes	Determining the stages of task implementation contributing to the verification of learning outcomes <i>devising a task implementation strategy embracing the division of content, the range of activities, implementation time and/or the method(s) of obtaining the necessary materials and tools, etc.</i>	Yes
c02	Preparation for verification of learning outcomes	Studying the literature used in and the materials produced in class <i>exploring the studied content, inquiring, considering, assimilating, interpreting it, or organizing knowledge obtained from the literature, documentation, instructions, scenarios, etc., used in class as well as from the notes or other materials/artifacts made in class</i>	No
e01	Activities complementary to the classes	Undertaking, on one's own initiative and individually, activities aimed at expanding the scope or depth of the teaching content, also beyond the walls of the University <i>a set of activities undertaken independently and on the student's own initiative, aimed at expanding the depth and scope of knowledge and skills, their revision and repetition, retention or verification, also activities carried outside the university, e.g., in a culture promoting or educational institution, a laboratory, in the open air, etc.; also self-education</i>	Yes

Information on the details of the module implementation in a given academic year can be found in the syllabus available in the USOS system: <https://usosweb.us.edu.pl>.

1.	Field of study	Tourism
2.	Faculty	Faculty of Natural Sciences
3.	Academic year of entry	2023/2024 (winter term), 2024/2025 (winter term)
4.	Level of qualifications/degree	second-cycle studies
5.	Degree profile	general academic
6.	Mode of study	full-time

7. General information about the module	
Module name	GIS in tourism
Module code	W2-TR-S2-058
Number of the ECTS credits	4
Language of instruction	Polish
Purpose and description of the content of education	As part of the module, the student learns about geographic information systems from both the theoretical and practical sides. As part of the lectures, the student acquires knowledge of the basics of cartography and geographic information systems, and becomes familiar with sources of spatial information and examples of their applications. In the laboratory, the student learns the principles of GIS programs. The student uses GIS software to perform spatial analysis of tourist phenomena and is able to use distributed sources of spatial information. He/she is able to independently make a map of the location of tourist values, carry out their valorization and perform basic spatial analyses.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-058_1	Can solve problems, appropriately select sources of spatial data on tourism phenomena, carry out a critical analysis, interpretation and evaluation as well as synthesis and presentation of this information using various cartographic presentation methods.	U01	5
W2-TR-S2-058_2	Able to analyse spatial phenomena in tourism using geographical information systems.	U05	4
W2-TR-S2-058_3	The student has the ability to present the results of spatial analyses in the form of a report or map, in accordance with the accepted principles for editing scientific texts and producing cartographic materials, and demonstrates the ability to critically analyse and select information from a range of cartographic data sources, to draw conclusions and formulate judgements about tourist phenomena occurring in the geographical environment.	U10	3
W2-TR-S2-058_4	Has in-depth knowledge and recognises research problems that can be solved using geographic information systems.	W01	5
W2-TR-S2-058_5	Has in-depth knowledge of selected GIS tools and knows the research methods applied for the analysis of spatial phenomena related to tourism, and interprets the results of spatial analyses in research and application work.	W06	4
W2-TR-S2-058_6	Knows the principles of planning and programming tourism development based on the results of spatial analyses of natural and socio-economic aspects.	W07	3

9. Methods of conducting classes		
Code	Category	Name (description)
a01	Lecture methods / expository methods	Formal lecture/ course-related lecture <i>a systematic course of study involving a synthetic presentation of an academic discipline; its implementation assumes a passive reception of the information provided</i>
d01	Programmed learning methods	Working with a computer <i>e.g., Webquest; implementation of educational tasks using electronic and digital devices, computer programs and Internet applications; the academic teacher acts as a consultant; students' work is carried out step by step according to the plan laid own by the person teaching the course and following his instructions, and proceeds towards producing the indicated results within the set deadline</i>

10. Forms of teaching

7.	General information about the module	
Module name		Humanist Module (2) - Introduction to the Labour Market
Module code		W2-TR-S2-026
Number of the ECTS credits		2
Language of instruction		Polish
Purpose and description of the content of education		The student is introduced to the current situation and trends in the labour market. The module includes the identification of job offers and conditions. The student learns about the procedures involved in establishing an employment relationship, the basic obligations of the employer and the employee. Labour market institutions are discussed. The student learns about the sources of data on the labour market and the tasks of the state in the field of employment promotion and unemployment prevention.
List of modules that must be completed before starting this module (if necessary)		not applicable

8.	Learning outcomes of the module			
	Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
	W2-TR-S2-026_1	Independently plans his/her own professional or scientific career	W04	4
	W2-TR-S2-026_2	Correctly identifies and resolves professional dilemmas (especially in the chosen specialty)	W05	4
	W2-TR-S2-026_3	Has knowledge of the situation and requirements of the labour market	W08	4

9.	Methods of conducting classes		
	Code	Category	Name (description)
	a02	Lecture methods / expository methods	Monographic lecture <i>an exhaustive discussion of one issue, usually related to the research interests of the person teaching the course or a thorough presentation of one selected issue</i>

10. Forms of teaching

7.	General information about the module	
Module name		Humanist Module (I) – Legal Basis in Tourism
Module code		W2-TR-S2-010
Number of the ECTS credits		3
Language of instruction		Polish
Purpose and description of the content of education		The module is intended to familiarize the student with such issues as: The concept of tourism law, sources of national and international legal regulations in tourism. Tourist services as a regulated economic activity. General terms and conditions for concluding contracts with consumers. The concept of a tourist event organizer, travel intermediary, travel agent. Consumer protection against unfair contract clauses. Civil liability in tourism: tour operator, travel intermediary, travel agent. Legal issues of international tourism (state borders, border formalities, passports, visas, customs and foreign exchange formalities). Penal regulations related to tourism.

7. General information about the module	
Module name	ICT in Tourism
Module code	W2-TR-S2-007
Number of the ECTS credits	3
Language of instruction	Polish
Purpose and description of the content of education	The student learns about information and communication systems in tourism. He or she acquires knowledge of the main reservation systems used in tourism and skills in their use. The student knows and is able to use network systems of booking basic tourist services, including portals of transport and accommodation services, he is able to correctly identify and use tourist information sources contained in the network: relevant sources of tourist information on insurance services, diplomatic posts, portals issuing warnings for tourists, information on necessary vaccinations, visas or customs in tourist destination countries. The student is able to accurately select the necessary information and assess its usefulness and correctness. They learn about contemporary trends in tourism (backpacking, coachsurfing) and communication portals related to them. The student acquires skills and knowledge in the field of information and interactive tourist services and modern techniques used in tourism promotion and marketing. He/she learns about modern solutions applied in tourist attractions, museums (interactivity, visitor counters). The student has information on cartographic resources useful in tourism and knows how to use them.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module				
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)	
W2-TR-S2-007_1	Is able to use modern information technologies in the field of tourism handling, especially concerning tourist reservation systems, applications and multimedia used in tourism. Can select appropriate tools and use them to handle tourism and promote tourism.	U06	5	
W2-TR-S2-007_2	Be able to use available sources of tourism information, evaluate, verify and select appropriate ones, including electronic sources taking into account foreign databases and available tourism websites.	U07	4	
W2-TR-S2-007_3	He critically evaluates his knowledge in the field of tourism and the IT tools used in it, is able to select content in the field of tourism and independently undertakes activities to supplement his knowledge of an interdisciplinary nature.	K02	5

7.	General information about the module	
Module name		Landscape and sights aspects in tourism
Module code		W2-TR-S2-025
Number of the ECTS credits		3
Language of instruction		Polish
Purpose and description of the content of education		The aim of the course is to acquire knowledge and skills to analyse scenic qualities as an element of tourist attractiveness. The student acquires knowledge of landscape-tourism relations and practical skills to analyse scenic qualities using techniques and tools of physiognomic landscape assessment.
List of modules that must be completed before starting this module (if necessary)		not applicable

8.	Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)	
W2-TR-S2-025_1	Has an in-depth knowledge of the landscape and landscape values and recognises problems on the landscape-tourism interface.	W01	5	
W2-TR-S2-025_2	Has an in-depth knowledge of the dilemmas of modern civilisation, particularly in the field of landscape conservation.	W03	4	
W2-TR-S2-025_3	Has an in-depth knowledge of selected scientific methods and knows the research methods used to study landscape attractiveness for tourism purposes.	W06	4	
W2-TR-S2-025_4	Understands the need for an interdisciplinary approach in landscape attractiveness research methods.	K01	3	
W2-TR-S2-025_5	Be able to solve methodological problems related to landscape analysis, carry out analysis and evaluation of tourist attractiveness.	K03	5	
W2-TR-S2-025_6	Possesses the ability to do research work in the field of tourism and to present its results in the form of a landscape analysis, in accordance with the accepted principles of editing scientific texts, as well as demonstrating the ability to critically analyse and select information from a variety of sources (different criteria for landscape assessment) and to draw conclusions from landscape analysis.	U02	4	

9. Methods of conducting classes		
Code	Category	Name (description)
a01	Lecture methods / expository methods	Formal lecture/ course-related lecture <i>a systematic course of study involving a synthetic presentation of an academic discipline; its implementation assumes a passive reception of the information provided</i>
b04	Problem-solving methods	Activating method – discussion / debate <i>an exchange of views supported by substantive arguments leading to a clash of different views, a compromise or the identification of common positions; it proceeds according to previously agreed-upon rules regarding the time, manner and turn-taking as well as the principles of civil discourse; a discussion is not a competition but aims at finding the best solutions or presenting different points of view; its varieties include brainstorming, Oxford-style debate, panel discussion, decision tree, conference discussion; a debate is an orderly dispute between supporters and opponents of a viewpoint, usually specialists in the field or pre-selected representatives of a group dealing with a common problem</i>
b07	Problem-solving methods	Activating methods: a case study <i>a comprehensive description of a phenomenon connected with the selected discipline; reflecting the reality, presenting the 'what', 'where' and 'how' of the phenomenon, i.e., all of its key aspects to be discussed in class; used as a reproduction, presentation, discussion or diagnosis of factors that shape the phenomenon or interact with it; an in-depth qualitative analysis and evaluation of a selected phenomenon</i>

7.	General information about the module	
Module name		Optional Module (IV)
Module code		W2-TR-S2-045
Number of the ECTS credits		3
Language of instruction		Polish
Purpose and description of the content of education		Optional module IV, focused on the topic of "management and marketing in tourism". Its main purpose is to equip students with knowledge of the prevailing concepts of tourism business management. The module's program is designed to develop students' ability to choose the right management strategy for a tourism entity, which is crucial for effective operation in the dynamically changing environment of the tourism industry. Students are exposed to a wide range of topics, from tourism marketing, tourist motivations, tourism market segmentation, niche tourism, to the quality of tourism services and the application of modern technology in tourism. The module also emphasizes understanding the impact of external factors on tourism, such as politics, economics, the environment, society and culture, and the future of tourism as an industry.

7. General information about the module	
Module name	Spare Time Animation
Module code	W2-TR-S2-024
Number of the ECTS credits	4
Language of instruction	Polish
Purpose and description of the content of education	The module introduces the student to issues related to leisure time animation, starting with an introduction to the notion of leisure time and its connection with tourism, through explanation of the role of leisure time animation in the tourist offer and the scope of work of an animator, to characteristics of various forms of animation activities. Issues are analysed theoretically - during lectures, and practically - during laboratories. During the laboratories, the student designs original animation activities addressed to a designated audience, and then carries them out on a group that takes the role of tourists.

Code	Category	Name (description)	Is it part of the BUNA?
a01	Preparation for classes	Search for materials and review activities necessary for class participation <i>reviewing literature, documentation, tools and materials as well as the specifics of the syllabus and the range of activities indicated in it as required for full participation in classes</i>	Yes
a02	Preparation for classes	Literature reading / analysis of source materials <i>reading the literature indicated in the syllabus; reviewing, organizing, analyzing and selecting source materials to be used in class</i>	Yes
a04	Preparation for classes	Consulting materials complementary to those indicated in the syllabus <i>agreeing on materials complementary to those indicated in the syllabus, supporting the implementation of tasks resulting from or necessary for class participation</i>	No
a05	Preparation for classes	Production/preparation of tools, materials or documentation necessary for class participation <i>developing, preparing and assessing the usefulness of tools and materials (e.g. aids, scenarios, research tools, equipment, etc.) to be employed in class or as an aid when preparing for classes</i>	No
b01	Consulting the curriculum and the organization of classes	Getting acquainted with the syllabus content <i>reading through the syllabus and getting acquainted with its content</i>	No

Information on the details of the module implementation in a given academic year can be found in the syllabus available in the USOS system: <https://usosweb.us.edu.pl>.

1.	Field of study	Tourism
2.	Faculty	Faculty of Natural Sciences
3.	Academic year of entry	2023/2024 (winter term), 2024/2025 (winter term)
4.	Level of qualifications/degree	second-cycle studies
5.	Degree profile	general academic
6.	Mode of study	full-time

7. General information about the module	
Module name	Statistics usage in tourism
Module code	W2-TR-S2-003
Number of the ECTS credits	2
Language of instruction	Polish
Purpose and description of the content of education	The aim of the course is to familiarize students with statistical methods and their application in tourism. It will include methods of descriptive statistics, structure research, statistical assessment and classification of tourism space, research on the interdependence of phenomena, as well as methods for assessing the dynamics of phenomena along with elements of forecasting.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-003_1	Can practically apply statistical methods and correctly interpret them and draw conclusions based on them	U02	5
W2-TR-S2-003_2	Knows statistical methods useful in the tourism industry	W06	4
W2-TR-S2-003_3	Is able to use the acquired knowledge to formulate and test hypotheses related to simple research problems in tourism	U01	5

9. Methods of conducting classes		
Code	Category	Name (description)
b04	Problem-solving methods	Activating method – discussion / debate <i>an exchange of views supported by substantive arguments leading to a clash of different views, a compromise or the identification of common positions; it proceeds according to previously agreed-upon rules regarding the time, manner and turn-taking as well as the principles of civil discourse; a discussion is not a competition but aims at finding the best solutions or presenting different points of view; its varieties include brainstorming, Oxford-style debate, panel discussion, decision tree, conference discussion; a debate is an orderly dispute between supporters and opponents of a viewpoint, usually specialists in the field or pre-selected representatives of a group dealing with a common problem</i>
c07	Demonstration methods	Screen presentation

		<i>a presentation of synthetic image content using computer graphics, e.g., a series of slides or other multimedia forms, usually accompanied by a commentary; typical components of a screen presentation include text organized into bulleted points, charts, images and animations, sometimes sound effects or music; a multimedia illustration of course content presented in the form of a projected image</i>

7. General information about the module	
Module name	Tourism Geographical (natural And Social-Economic) Conditioning
Module code	W2-TR-S2-020
Number of the ECTS credits	3
Language of instruction	Polish
Purpose and description of the content of education	The student learns about the geographical conditions of tourism development, both of a natural and socio-economic nature. He/she can identify and assess factors and barriers affecting the development of tourism. The student acquires the skill of causal interpretation of natural phenomena and those related to human activity. Can evaluate the importance and influence of individual elements on the potential and possibility of tourism development.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-020_1	Knows the principles and mechanisms of tourism development based on natural, social and economic aspects. Has in-depth and up-to-date geographical knowledge to perceive the relationships and dependencies in nature concerning the conditions of tourism, both natural and socio-economic.	W07	4
W2-TR-S2-020_2	Has an in-depth knowledge of the dilemmas of modern civilisation, particularly with regard to the protection of the natural environment in the context of pro-ecological tourist economy. Has knowledge of threats to the natural environment, in particular to legally protected areas, and resulting from excessive or inappropriately organised tourist traffic.	W03	5
W2-TR-S2-020_3	He/she is able to use the knowledge he/she possesses to correctly analyse the causes, course of processes and natural and social phenomena occurring in the tourist space.	U02	4
W2-TR-S2-020_4	Can analyse natural, social and economic phenomena in the field of tourism; understands their impact on the volume of tourism. Can use theoretical knowledge to describe and analyse the geographical conditions of tourism.	U05	3
W2-TR-S2-020_5	Understands the need for an interdisciplinary approach to solving problems, integrating knowledge or using skills from different disciplines	K01	5

9. Methods of conducting classes

7. General information about the module	
Module name	Tourist Attractions of Poland
Module code	W2-TR-S2-012
Number of the ECTS credits	4
Language of instruction	Polish
Purpose and description of the content of education	The module Tourist Attractions of Poland is designed to give the student an in-depth insight into the sightseeing attractions of Poland that are of interest to the tourist. They include elements of material and spiritual culture (monuments, folklore, objects of national culture) and peculiarities of nature (historical parks, caves, springs, waterfalls, botanical and zoological gardens) which the student will know how to interpret. The student will learn about tourist regions of Poland from Pomerania to the Tatra Mountains and Sudetes. The subject will focus on the study of the whole range of phenomena and processes related to broadly defined tourist attractions in regional terms, together with their practical application.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-012_1	Has in-depth knowledge of Poland's tourist attractions, knows and understands the stages of Poland's economic and cultural development and their impact on the formation and evolution of tourist attractions in Poland	W02	5
W2-TR-S2-012_2	Is able to identify and analyze key research problems related to tourism in Poland, using research methods	W01	5
W2-TR-S2-012_3	Is able to critically assess and apply knowledge about the principles of protection of the natural and cultural environment in the context of tourism development in Poland.	K01 W03	5 5
W2-TR-S2-012_4	Is able to critically analyze and interpret various types of tourist attractions in Poland	U02	5
W2-TR-S2-012_5	He systematically updates his natural and humanistic knowledge about Poland's tourist attractions, knows its practical applications, and actively participates in activities to preserve the country's natural and cultural heritage.	K02 U06	5 5

7. General information about the module	
Module name	Tourist Attractions of the World
Module code	W2-TR-S2-011
Number of the ECTS credits	4
Language of instruction	Polish
Purpose and description of the content of education	The subject aims to present various types of tourist attractions in the world and their spatial diversity. It also presents the natural, social, cultural and economic conditions that influenced the development of tourist attractions. Students will learn about the typology of tourist attractions and the tourist regionalization of the world. Students acquire knowledge about the location of tourist attractions in the world, their characteristics, regional specificity and impact on contemporary tourism. The presented tourist attractions are both regional and typological.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-011_1	Be able to identify research problems related to world tourist attractions and describe them based on existing scientific models and theories	W01	5
W2-TR-S2-011_2	Has an in-depth knowledge of the main stages of world economic development and understands their impact on socio-cultural aspects in terms of tourism regionalisation	W02	5
W2-TR-S2-011_3	Knows the issues of tourism development planning in natural, social, economic and legal terms, and the basics of entrepreneurship in the tourism industry	W07	4
W2-TR-S2-011_4	Knows how to demonstrate and analyse natural and socio-economic phenomena in the field of tourism, and how to predict and counteract their impact on the natural environment	U05	4
W2-TR-S2-011_5	Be able to interact and work in a group analysing issues of world tourism attractiveness, taking on different roles in the group and organising teamwork	K05	4

7. General information about the module	
Module name	Tourist planning and development
Module code	W2-TR-S2-017
Number of the ECTS credits	3
Language of instruction	Polish
Purpose and description of the content of education	The aim of the module is to familiarise students with issues related to tourism development and spatial planning of areas of different types and functions. The module covers issues related to the adaptation of various spaces (mountain areas, coastal areas, lake districts, protected areas, forest areas, rural areas) to their tourism functions (leisure tourism, sightseeing tourism, active tourism, etc.). Issues related to the characteristics of tourism development, planning and programming of space for tourism purposes will be discussed.
List of modules that must be completed before starting this module (if necessary)	not applicable

8. Learning outcomes of the module			
Code	Description	Learning outcomes of the programme	Level of competenc (scale 1-5)
W2-TR-S2-017_1	It has an in-depth knowledge of types of tourism space, classification of tourism base and tourism assets, and of ways to develop mountainous, coastal, lakeside, forested, rural areas.	W01	5
W2-TR-S2-017_2	Has an in-depth knowledge of how to manage tourism in protected natural areas	W03	5
W2-TR-S2-017_3	Knows the principles related to tourism and tourism development programming related to different forms of tourism and adaptation of tourism development for people with disabilities	W07	4
W2-TR-S2-017_4	Able to carry out a written analysis of tourist development of a selected area with its evaluation in accordance with the accepted principles of editing scientific texts	U10	5
W2-TR-S2-017_5	Is familiar with legal regulations and documents related to tourism planning, including spatial planning and regulations related to tourism facilities	W04	4
W2-TR-S2-025_6	Can program the development of tourism development based on the collected information on existing conditions, carried out their analysis, interpretation and evaluation, as well as perform a synthesis and presentation	U01	5

7.	General information about the module	
Module name		Workshops in tourism
Module code		W2-TR-S2-002
Number of the ECTS credits		4
Language of instruction		Polish
Purpose and description of the content of education		After completing the course, the student acquires basic skills in conducting tourism research and developing the concept of individual scientific work. The course covers issues related to preparation for independent research work in the field of tourism and recognition/identification of a research problem. It includes a number of elements such as: (1) formulating the research problem, subject and purpose of the work, (2) constructing the table of contents of the scientific work, (3) obtaining statistical and field data, (4) ability to construct tables and graphically display data (5) applying appropriate tourism concepts and research methods, (6) correct inference. Additionally, the student is able to recognize phenomena occurring in contemporary tourism and identifies the conditions and effects of tourism development.

Code	Category	Name (description)
a01	Lecture methods / expository methods	Formal lecture/ course-related lecture <i>a systematic course of study involving a synthetic presentation of an academic discipline; its implementation assumes a passive reception of the information provided</i>
b04	Problem-solving methods	Activating method – discussion / debate <i>an exchange of views supported by substantive arguments leading to a clash of different views, a compromise or the identification of common positions; it proceeds according to previously agreed-upon rules regarding the time, manner and turn-taking as well as the principles of civil discourse; a discussion is not a competition but aims at finding the best solutions or presenting different points of view; its varieties include brainstorming, Oxford-style debate, panel discussion, decision tree, conference discussion; a debate is an orderly dispute between supporters and opponents of a viewpoint, usually specialists in the field or pre-selected representatives of a group dealing with a common problem</i>
c07	Demonstration methods	Screen presentation <i>a presentation of synthetic image content using computer graphics, e.g., a series of slides or other multimedia forms, usually accompanied by a commentary; typical components of a screen presentation include text organized into bulleted points, charts, images and animations, sometimes sound effects or music; a multimedia illustration of course content presented in the form of a projected image</i>

10. Forms of teaching					
Code	Name	Number of hours	Assessment of the learning outcomes of the module	Learning outcomes of the module	Methods of conducting classes
W2-TR-S2-002_fs_1	lecture	15	course work	W2-TR-S2-002_1, W2-TR-S2-002_2, W2-TR-S2-002_3	a01
W2-TR-S2-002_fs_2	practical classes	15	course work	W2-TR-S2-002_4, W2-TR-S2-002_5	b04, c07

11. The student's work, apart from participation in classes, includes in particular:			
Code	Category	Name (description)	Is it part of the BUNA?
a01	Preparation for classes	Search for materials and review activities necessary for class participation <i>reviewing literature, documentation, tools and materials as well as the specifics of the syllabus and the range of activities indicated in it as required for full participation in classes</i>	Yes
a02	Preparation for classes	Literature reading / analysis of source materials <i>reading the literature indicated in the syllabus; reviewing, organizing, analyzing and selecting source materials to be used in class</i>	Yes
a03	Preparation for classes	Developing practical skills <i>activities involving the repetition, refinement and consolidation of practical skills, including those developed during previous classes or new skills necessary for the implementation of subsequent elements of the curriculum (as preparation for class participation)</i>	Yes
a04	Preparation for classes	Consulting materials complementary to those indicated in the syllabus <i>agreeing on materials complementary to those indicated in the syllabus, supporting the implementation of tasks resulting from or necessary for class participation</i>	No
b01	Consulting the curriculum and the organization of classes	Getting acquainted with the syllabus content <i>reading through the syllabus and getting acquainted with its content</i>	No

Information on the details of the module implementation in a given academic year can be found in the syllabus available in the USOS system: <https://usosweb.us.edu.pl>.
